

A PDF creation, markup, and editing solution for real results.

# Bluebeam® PDF Revu®

## Create PDFs

One button PDFs from Office, batch processing, scan to PDF and PDF printer for all Windows files.

## Markup PDFs

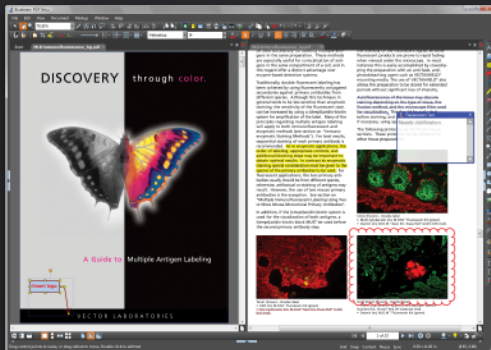

Add comments, symbols, stamps and signatures to PDF files and store custom markups in the Tool Chest.

## Edit PDFs

Edit text and document pages, attach files, add bookmarks, headers and footers.

## Share PDFs

Review documents electronically to save time and paper, create PDF packages to email several files at once.

Going paperless is not just about implementing green business practices, it's also about reducing costs associated with paper intensive processes. Bluebeam PDF Revu combines an intuitive PDF editor, viewer and markup tool with reliable file creation technology that produces real results for our customers - up to 80% reduction in paper usage and distribution, up to 60% reduction in response time and an almost immediate return on investment. The intuitive and flexible interface offers the necessary tools for sharing documents and communicating electronically in PDF.

# Standard Edition

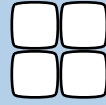

## New in version 7

- Spell check
- Scan to PDF
- PDF packages
- PDF templates
- Reduce file size
- PDF flags
- Batch creation for MS Office

# Why Bluebeam?

## Still the most intuitive interface.

An interface that makes sense. Open documents are displayed in popular tab form so you can easily switch between them. If you need to see multiple documents, our MultiView™ technology allows you to view up to 16 documents simultaneously. You can also customize the look of the interface with a simple Profile change.

## No hunting for markup tools.

Software features should be easy to find. Bluebeam displays all the markup tools in toolbars so you can quickly markup your document. Properties toolbars are also displayed so you can change the color, font, line widths and other properties with a mouse click. There is no need for extra or repetitive steps. Our exclusive Tool Chest stores every markup and comment you make so you can reapply with just a mouse click. You can also share custom tool sets with colleagues across a network or around the world.

## PDF form filling made easy.

PDF files containing form fields are easily viewed and completed with Revu. Bluebeam automatically recognizes a PDF form and allows you to fill in text, select from a drop down list, check boxes, select radio buttons and press Submit or Reset buttons. Saving filled or partially filled forms to your hard drive helps you avoid losing any work.

## Tablet users love it.

View and markup PDF files with the ease of your tablet pen. Bluebeam's complete PDF solution offers tablet-specific functionality like searchable ink, built-in TIP, custom interface and zooming.

## No more number crunching.

Take measurements and count from PDFs electronically. Bluebeam does all the work for you. Results are automatically displayed in a list that can be summarized and imported into Excel for further calculations.

## So much included with your purchase.

At half the price of the leading PDF software, choosing Bluebeam is a no brainer. Included with your license is free email tech support, tutorials and online resources. Optional maintenance plans and training programs are available too.

## Sign, stamp and secure.

Your intellectual property is important to you, so Bluebeam helps you keep it safe. Security features allow you to determine who can view, print, comment or copy from your documents. With digital signatures, PDF stamps and password protection, you can safe guard your content before it's distributed.

## For the savvy user.

Advanced editing features provide endless options. Combine PDFs and any other file in an organized PDF package. Create customized stamps with the revamped Stamp Editor. Create and save PDF templates. Insert flags that link to important areas of a PDF such as signature lines or the bottom line.

## A professional and affordable PDF solution

# seats	price/seat
1-4	\$149
5-9	\$129
10-24	\$119
25-49	\$109
50-99	\$99
100-199	\$89
