

Bluebeam® PDF Revu® Standard Features & Compatibility

Compatibility & System Requirements

Operating System

Windows XP SP2 (32-bit and 64-bit), Windows XP Tablet Edition, Windows Vista (32-bit and 64-bit)

Microsoft Office

Microsoft Office XP, 2003, 2007 (Word, Excel, PowerPoint). Previous versions of Office are supported through the Bluebeam PDF printer.

* MS Office plug-ins are compatible with 32-bit versions of Windows only

AutoCAD LT

AutoCAD LT 2004 – 2009

AutoCAD LT is supported by the Bluebeam PDF printer. A two button toolbar is added to AutoCAD LT which uses the Bluebeam PDF printer to create PDF files.

Other Applications

The Bluebeam PDF printer works with all Windows and CAD applications installed on your PC; i.e., AutoCAD LT, Revit, Autodesk Inventor, MicroStation, Pro/Engineer, Unigraphics.

64-bit Compatibility

The 64-bit version of Bluebeam PDF Revu Standard Edition is compatible with Windows XP x64 and Vista x64. The 64-bit version of Bluebeam does not plug-in to 32-bit of Microsoft Office.

PDF Editing and Markup Features

- Edit text in a PDF file
- Add markups as a layer over an existing PDF
- Combine PDFs and create PDF packages
- Add stamps, flags, bookmarks, file attachments, hyperlinks, and headers/footers
- Permanently delete text or images in a PDF
- PDF form filling
- Add digital signatures to a PDF
- Measure area, length, volume, perimeter or count from a PDF drawing
- Spell check
- Reduce PDF file size and control resolution, color, embedded fonts and file data
-

Bluebeam Stapler

- Create PDF booklets
- Creates a single PDF file from multiple PDFs, CAD drawings or Windows files
- Natively supports Word, Excel, PowerPoint, and all image types
- Provides a drag-and-drop window that allows users to rapidly convert multiple native files to the ten formats Bluebeam PDF Revu Standard Edition supports

File Conversion Features

- Converts any Windows file to PDF, TIF, JPG, BMP, PSD, PNG, and PCL
- Adds Bluebeam buttons into Word, Excel and PowerPoint toolbars for one button PDFs and batch creation
- Installs Bluebeam PDF printer Driver for PDF writing to create PDF, TIF, JPG, GIF, BMP, PSD, PNG, EMF, WMF and PCL files from any application including:
 - Any Windows application installed (MS Project, Visio, Outlook, etc.)
 - Any CAD application or viewer installed (Inventor, Pro/Engineer, Unigraphics, MicroStation, Solid Edge, ArchiCAD, Autodesk TrueView)
 - HTML Pages
- Integrates with Office XP, 2003, and 2007
- Adds Bluebeam buttons into AutoCAD LT toolbar (2004 – 2009)
- Bluebeam PDF printer driver automatically recognizes which application it is converting from and has predefined settings for most major CAD applications for optimal PDF output. Predefined PDF settings exist for:
 - AutoCAD
 - AutoCAD Revit
 - Autodesk Inventor
 - SolidWorks
 - MicroStation
 - Pro/Engineer
 - Unigraphics
 - Microsoft Word
 - Microsoft Excel
 - Microsoft PowerPoint
- Converts scanner and digital camera images to PDF (Scan to PDF)
- Converts true type text to PDF files as searchable text
- Converts images to PDF and PDF to images with built-in image converter

Security Features for MS Office

- Bluebeam security features allow you to:
 - Set a password to open files
 - Restrict printing or designate a printing quality parameter
 - Restrict ability to copy text or graphics
 - Restrict creation of form fields and annotations
 - Restrict ability to fill out form fields
 - Restrict ability to manipulate or render pages
 - Restrict ability to create bookmarks
 - Save default passwords
 - Add digital signatures
- Apply security to a batch of PDF files in Revu

Bookmarking Features for MS Office

- Automatically adds bookmarks in PDF files created from MS Office documents based on
 - Table of contents (For Word docs)
 - Slide names (For PowerPoint docs)
 - Sheet names (For Excel docs)

Page Settings Options for MS Office

- Use the default MS Office page setup for creating PDF files or defining a custom page setup
- Define custom page settings for a PDF file by changing:
 - Paper Size
 - Plot area in Excel
 - Plot Scale – Ability to use number of predefined, scaled to fit, or custom definitions
- Support for custom page sizes
- Set default page size to A4 or Letter
- Can set prompting for filename
- Automatically use document name as default
- Option to select new file name
- View results of PDF creation in Revu after PDF translation completes
- Use the last saved PDF folder for the location to write PDF files
- Choose options for plotting individual PDF files:
 - All pages
 - Current page
 - Selected pages
- Uses PDF vector line quality settings
- Uses Raster image quality settings

E-mail Features for MS Office

- Ability to simultaneously convert and e-mail a file
- Fully integrated into MS Office for one-button transmission
- Saves E-mail settings for reuse
- Ability to compress E-mailed files
- Ability to specify different E-mail client or SMTP connection

FTP Features for MS Office

- Ability to simultaneously convert and transmit a file to an FTP project server
- Fully integrated into MS Office for one-button transmission
- Saves project server settings
- Configurable on a per-project basis

Interactive Features for MS Office

- Transfer hyperlinks from MS Office documents
- Add text stamps to PDFs created from MS Office
- Select from a large group of predefined text stamps including:
 - Time stamp
 - Date
 - File name
 - Path
- Customized text stamp capability
 - Customize text stamp words
 - Select font, font size, font color, justification, and location on the page
 - Embed any number of file attachments
- Bluebeam compresses embedded files for E-mailing and sharing
- Add Digital Signature fields and sign PDFs in Revu

Miscellaneous

- Works in international versions of MS Office (not localized text)
- Trial
