CAD Extensions

Some manufacturers struggle to develop product definitions because of incompatibility across multiple CAD systems or functional shortcomings. With Pro/ENGINEER Wildfire, design engineers can handle tasks of any complexity, easily connecting to other users and accessing information over the Web – directly from the design environment. Pro/ENGINEER Wildfire is the scalable choice for small and large companies alike.

Pro/ENGINEER

With integrated CAD/CAM/CAE capabilities, Pro/ENGINEER is the world's most commercially adopted 3D product design solution.

Pro/ENGINEER Advanced Assembly

Manages components & sub-assemblies for top-down design.

Pro/ENGINEER Advanced Rendering

Quick creation of stunningly realistic product images.

Pro/ENGINEER Tolerance Analysis Extension

Provides fast, seamless geometric tolerance and variation analysis.

Pro/ENGINEER ECAD-MCAD Collaboration Extension

Accelerate electromechanical design collaboration.

Pro/ENGINEER Interactive Surface Design

Superior freeform surfacing capabilities.

Pro/ENGINEER Manikin Extension

Insert accurate human models into your 3D CAD product models.

Pro/ENGINEER Manikin Analysis Extension

Analyze human-product interactions.

Pro/ENGINEER Piping and Cabling Extension

Extract logical information from schematics to automate 3D cable and pipe routing.

Pro/ENGINEER Rights Management Extension

Protect your valuable design IP persistently and dynamically.

Pro/CONCEPT

Combined 2D & 3D digital sketchbook for product ideation & presentation.

Pro/ENGINEER Expert Framework

Structural design capabilities for machine designers & equipment manufactures.

Pro/ENGINEER Reverse Engineering

Transforms existing physical products into digital models.

Pro/ENGINEER Routed Systems Designer

Automates data transfer to Pro/ENGINEER for 3D cabling/piping design.
