Hardware

Ad-Tech supplies and supports a broad range of high performance computer solutions including CAD and PC workstations, servers, data storage systems, high end graphics, and backup devices for business organizations and educational establishments.

We design, build and customize our products, solutions and services to meet the individual requirements of our customers. By dealing directly with our customers we are able to deliver the right solutions for their requirements. Our technical expertise and experience in the high performance computing, digital content creation and computer aided design markets also allows us to provide a wide range of high-end systems usually not available from mainstream manufacturers.

Our goal is to develop and deliver the highest quality, proven, reliable and cost effective solutions to our customers through continuous product development and system design.

Call for special configuration and prices.

The components we use in our integrated solutions are chosen for their quality and reliability. The manufacturers below are among those whose products are integrated in our solutions.
