## Pro/ENGINEER Interface for CATIA II with ATB

### Associative data exchange

Industry-wide, the ability to deal with CAD data from a variety of sources is an absolute necessity. Pro/ENGINEER Interface for CATIA II with ATB makes that reality a bit easier. It natively reads CATIA V4 data within Pro/ENGINEER, while retaining associativity. Changes made in CATIA drive updates within Pro/ENGINEER, allowing more efficient multi-CAD design.

#### Capabilities & Benefits:

- Broad entity support, including surfaces/skins, mockup surfaces, colors and layers
- Higher-order geometry maintained, ensuring design integrity
- Supports "dittos" and "sessions," enabling associative transfer of assembly data
- Associative updates allow concurrent design and production work in Pro/ENGINEER to proceed with confidence
- Native data import and export without requiring a CATIA V4 license
