Pro/ENGINEER

Winning CAD Solutions for Projects Large & Small

Pro/ENGINEER is the standard in 3D product design, featuring industry-leading productivity tools that promote best practices in design while ensuring compliance with your industry and company standards. Integrated Pro/ENGINEER CAD/CAM/CAE solutions allow you to design faster than ever, while maximizing innovation and quality to ultimately create exceptional products.

Benefits:

- Unsurpassed geometry creation capabilities allow superior product differentiation and manufacturability
- Fully integrated applications allow you to develop everything from concept to manufacturing within one application
- Automatic propagation of design changes to all downstream deliverables allows you to design with confidence
- Complete virtual simulation capabilities enable you to improve product performance and exceed product quality goals
- Automated generation of associative tooling design, assembly instructions, and machine code allow for maximum production efficiency

Key component of PTC's Product Development System

Integral connection with Windchill and Arbortext

Compatibility with myriad CAD tools

Includes associative data exchange and industry standard data formats

Robust CAM & CAE capabilities

Complete tooling and manufacturing, structural, thermal, fatigue and dynamic simulation

Full suite of design capabilities

Spans conceptual and industrial design, freeform surfacing, production detailing, framework design, schematics, and 3D routed systems
