Pro/ENGINEER Rights Management Extension

Protect Design IP

Outsourcing is critical for survival in today's globally competitive environment. But every time you remove information from secure content management solutions and share it outside the company firewalls, your IP is at risk if it is not protected at the file level. The Pro/ENGINEER Rights Management Extension can help you protect your valuable intellectual property with market leading digital rights management capabilities. Powered by Adobe LiveCycle Rights Management ES, Pro/ENGINEER gives you persistent and dynamic access control of your CAD data. Share your design information with confidence and improve your design and manufacturing outsourcing processes.

Capabilities & Benefits

- Provides persistent and dynamic access control to Pro/ENGINEER part, assembly, and drawing files
- Precise control over data access rights such as file open, copy, save, print, online and offline access
- Instantly updates access rights to shared files as needs change for file version control or changes in partner/employee relationships
- Pro/ENGINEER data is secure everywhere, even outside physical firewalls and secure content management solutions
- Robust design IP protection improves design and manufacturing outsourcing processes
