Servers

Our servers are designed around the varying needs of our customers. We have a range that will suit requirements for most SMB applications. The range features either the Intel Dual Xeon or AMD dual Opteron processors, and either Microsoft Small Business Server or Linux. These servers also feature optional Serial ATA or SCSI Raid controllers with disk capacities up to 1.5 TB. Both rackmount and pedestal styles are available.

AMD processors are available as an option on all systems.

Call for special configuration and prices.
