## Software

### Pro/ENGINEER

Pro/ENGINEER is the standard in 3D product design, featuring industry-leading productivity tools that promote best practices in design while ensuring compliance with your industry and company standards. Integrated Pro/ENGINEER CAD/CAM/CAE solutions allow you to design faster than ever, while maximizing innovation and quality to ultimately create exceptional products.

### Pro/TOOLMAKER

Pro/TOOLMAKER offers the power of high-speed machining for toolmaking, prototypes, and other precision machining applications, with a fast, easy-to-use, NC toolpath programming application. With Pro/TOOLMAKER, manufacturing engineers can work with data from any CAD system, create associative NC toolpaths directly from CAD models, and leverage concurrent engineering while allowing you to increase product quality, reduce scrap, and shave production time and costs for any design.

### Windchill

As the industry's most comprehensive PLM solution, Windchill offers capabilities to meet the needs of any size business. Whether you need core product data management capabilities, optimization of processes to meet industry-specific requirements, or support for global product development, Windchill can help you achieve all your objectives.

### Arbortext

Arbortext streamlines and automates your information publishing process and eliminates costly documentation errors. Leveraging XML authoring, technical illustration creation, content and process management, and dynamic publishing capabilities of Arbortext, you can improve your publishing processes and help your organization gain a significant competitive advantage and lasting differentiation.

### IsoDraw

Boost your productivity with the industry's most powerful technical illustration tool. Arbortext IsoDraw Foundation allows you to create from scratch, photo-trace, or reuse existing CAD data, scans, legacy illustrations, etc. to develop high-quality technical illustrations and animations. Automatically prepare illustrations for print, CD, or the Web. This allows you to deliver your product to market faster with a higher level of accuracy while saving time, effort and money.

### Mathcad

Over 250,000 professionals worldwide are using Mathcad to perform, document, and share calculation and design work. The unique Mathcad visual format and easy-to-use whiteboard interface integrate standard mathematical notation, text, and graphs into a single worksheet making Mathcad ideal for knowledge capture, calculation reuse, and engineering collaboration. Mathcad lets individuals work with updateable, interactive designs, so users can capture the critical methods and values behind each of their engineering projects.

# 2D CAD

## ZwCAD Pro

ZwCAD is a IntelliCAD-based 2D/3D CAD tool that offers a advanced technology alternative at an affordable price. ZwCAD is fully compatible with AutoCAD® and uses the exact same DWG drawing formats as AutoCAD® (from 2.5- 2008). Drawings created by ZwCAD can be read and edited by AutoCAD® and vice versa. The interface and other functionalities are extremely similar.

## AutoCAD LT

AutoCAD LT Software, the world's number one-selling 2D drafting product, just got better. AutoCAD LT 2008 with native DWG file format compatibility, simplifies drawing sharing. With enhancements such as dynamic blocks, Layer Express Tools, and improved drafting functionality, every day tasks are streamlined with just one thing in mind — your productivity.

## Bluebeam PDF

Bluebeam PDF Revu Standard Edition is the ideal PDF solution for firms that need a smart, simple and affordable solution to create, view, markup, and edit PDF files. Whether you are an architect, engineer, contractor, technician, lawyer, office manager, or other professional, Bluebeam solutions are simple to understand and use, yet ensure the quality, accuracy, and fidelity you expect of PDF. Our PDF viewer and editing application, Bluebeam Revu, includes a complete tool set designed for professionals who wish to share and review documents and drawing electronically, saving time and money with no worries or frustrations.
