### **Now, ZwCAD is your intelligent choice!**

DWG is considered to be the standard file format in the CAD industry and millions of engineers use AutoCAD® everyday. However, the price of AutoCAD® can be unaffordable, even its update fee is very expensive. ZwCAD's affordable price is a great alternative for CAD users.

ZwCAD, based on the latest IntelliCAD, is fully compatible with AutoCAD®. ZwCAD uses the exact same DWG drawing format as AutoCAD® (from 2.5 - 2009). Drawings made by ZwCAD can be read and edited by AutoCAD® and vice versa. The interface and other functions are almost the same.

ZwCAD today has over 60,000 customers in more than 61 countries, including United States, Germany, Italy, Japan, Brazil, France, Poland, Indonesia, Russia, China, etc. Many Fortune 500 companies including Honda, Panasonic, Hitachi, and Honeywell use ZwCAD as their basic 2D/3D drafting tools.
